Subject: Call from Supervisor Gibson's Office

I received a call from Supv. Gibson's office this morning. The majority of the call had to do with an on going neighbor dispute at Roanoke of God. A neighbor, Carrie Burton has been trying to shut down the commune since she moved in and has had extensive contact with all county divisions i.e planning, pollution control, BOS, etc. Mr. Goodwin, manager/owner at Roanoke, has complied with all directions from planning etc but Ms. Burton is still not happy. Mr. Goodwin contacted Gibson's office and alleged a gentleman by the name of John Lynn Harris has recently been assisting Ms. Burton because he has an issue with Mr. Goodwin and Goodwin says he is "worn out" and feels his safety is threatened. Goodwin also alleges there is a warrant for Mr. Harris however I was unable to locate the name and dispatch also came up empty. The up shot, (there's always one isn't there?) Mr. Goodwin claims that a deputy is often at Ms. Burton's residence, sometimes for over an hour. He feels this is longer than just a "break" and wonders if Ms. Burton has "connections" with the Sheriff Department. My question would be, if this is true, why is a deputy parked at Ms. Burton's residence often enough to have been noticed and for such a long time? I do not think an investigation is warranted at this time but you might mention at briefings the fact that it has been alleged to the Board of Supervisors that this is going on and if someone is visiting Ms. Burton for lengthy periods of time they might want to reconsider how they spend their time on patrol.
